Banner 9 Essentials Testing

ARGOS REPORTS

CIT – Team

February 18, 2020
Replacing Banner 8 Customized Reports

Currently, Oracle Reports will not be supported in Banner 9 Essentials by Ellucian.
Part of Evisions MAPS products:

- FormFusion (currently use)
- IntelleCheck (currently use)
- Argos (new to HU)
Logging in Evisions for ARGOS Report Viewer

Evisions Argos is an enterprise reporting solution that gives you quicker access to the data that you need to run your institution. Argos makes reporting simple, delivering insights that enable you to make timely, better-informed decisions.

Implementation - Phased Approach

**Phase I** – Argos Reports outside of Banner 9 Essentials
- Get all Banner 8 Customized Reports up and running in Argos
- User can have Banner 9 Essentials Application and Argos for Reports open at same time.
Fine Grain Security will be implemented. Only see reports authorized to run.

  **NOTE**--Currently in Banner 8, you can only launch Customized Reports inside Banner and wait for it to finish before doing any other tasks for a majority of users.

**Phase II** – TOAD scripts that SELECT (view only) data will be created in Argos Reports.
- The user will be able to generate “at will” instead of requesting Computer Center to generate.
Fine Grain Security will be implemented. Only see reports authorized to run.

**Phase III** – New BCR requests to generate views of data (SELECT) will be created in Argos Reports.
- The user will be able to generate “at will” instead of requesting Computer Center to generate.
Fine Grain Security will be implemented. Only see reports authorized to run.

**Phase IV** – Argos Reports incorporated in Banner 9 Essentials

No requests for adding/updating/deleting of data will be placed in Argos. Those will be responsibility of the Computer Center.
